

COMMUNITIES

A SINGLE, HOLISTIC RATING TOOL FOR COMMUNITIES AND PRECINCTS

Since the introduction of Green Star to New Zealand in 2007, over 130 building projects have been certified using the base building and interiors rating tools. These projects have included offices, educational facilities, industrial projects and a health care facility. We are excited to now be able to offer Green Star - Communities Certification to precinct-scaled projects leading the way in sustainable development.

- Residential developments
- Mixed use precincts
- Education campus
- Industrial parks
- Commercial developments
- Healthcare precincts

COMMUNITIES

BASE BUILDING

INTERIORS

PERFORMANCE

- Enhanced liveability
- Economic prosperity
- Environmental responsibility
- Design Excellence
- Strong Leadership and Governance

GOVERNANCE

LIVEABILITY

ECONOMIC PROSPERITY

The Governance category aims to ensure Green Star - Communities projects have a strong governance framework in place by setting benchmarks that encourage developers to operate transparently.

The Liveability category aims to ensure development projects are diverse, affordable, safe, inclusive and improve the wellbeing of those that live, work and play within them.

The Economic Prosperity category aims to ensure development projects facilitate business diversity, education, skills development and productivity.

ENVIRONMENT

The Environment category aims to ensure development projects are less resource intensive and prioritise practices that reduce a community's impact on land, water and the atmosphere.

INNOVATION

The Green Star Innovation category promotes holistic sustainable solutions in the built environment, and encourages projects in investing resources into valuable outcomes.
